DON'T TRUST WARRANTIES? Now There's a Better Choice!

Dear Consumer,

After spending more than 20 years in the industry, we know better than anyone that the words "extended warranty" are not always well received. That's because these plans aren't always consumer friendly. They cost too much. They trap you in long-term contracts. Their slow claim process is convoluted by unreliable middlemen, unhelpful representatives, and frustrating systems—and that's IF they'll even pay for your claim.

That's why we created Everything Breaks, a new type of protection plan that works in your favor. We offer comprehensive, reliable, and affordable protection for almost everything you own. Home and auto? Covered. Smartphones, laptops, and tablets? Covered. Televisions and appliances? Covered.

We've helped millions of satisfied customers save thousands on repair bills. No hidden costs. No unfair contracts. No "We've been trying to reach you about your vehicle's extended warranty." Just great coverage at a price you can afford.

Your next repair bill is coming, can you afford it? Protect yourself with an Everything Breaks Protection Plan today!
